

*For me, problem solving is all about working effectively and collaboratively with other design professionals to identify the best solution to a given design challenge, while building strong professional relationships in the process. I see my role as helping to coordinate and drive design solutions that are constructible while remaining true to the original design intent.*

## Areas of Expertise

Design Development  
Technical Implementation  
Exterior and Interior Detailing  
Construction Documents  
Building Codes and Permitting  
Construction Administration

Revit 2022  
Bluebeam Revu 2022  
Fluent in Spanish

## Years of Experience

27

## Education

**Master of Architecture**  
*University of Colorado at Denver*  
**Bachelor of Architecture**  
*Universidad Regiomontana,  
Monterrey, Mexico*

## Work Experience

**Graphite Design Group**  
*March 2018 to Present*  
**Callison-RTKL**  
*October 1997 – Feb. 2018*  
**TRA**  
*Sept. 1994 – Sept. 1997*  
**Cronenwett Architects**  
*May 1992 – February 1994*  
**Fentress Architects**  
*June 1991 – June 1992*

## Overview

Senior project architect with broad experience in all project phases, with particular expertise in serving as the technical liaison between client, consultants and the design team carrying a project through design documentation and construction.

## Sample Projects

**Block V - Seattle, WA.** Senior project architect for this 42-story, two-tower structure including approximately 311,000 SF of office space, 10,700 SF of retail space, 665 residential units, and seven levels of below grade parking.

**Vulcan Block 37 - Seattle, WA.** Lead project architect overseeing project from schematic design to construction documentation, and permitting, for this six-story office building including ground level retail space and three levels of below grade parking.

**Amazon Frontier - Seattle, WA.** Senior project architect overseeing documentation and construction administration of the interior public spaces for this 17-story office building.

**Lakefront "Google" Blocks - Seattle, WA.** Senior project architect overseeing construction administration for this mixed-use, transit oriented development comprised of four 14-story towers, organized around public plazas.

**Nordstrom Flagship Store – San Juan, Puerto Rico.** Lead project architect overseeing project from planning to construction documents and construction administration for this \$40 million, 160,000 SF retail development.

**Amazon Dawson and Ruby Buildings (Phase IV)– Seattle, WA.** Lead project architect overseeing project from schematic design to construction documentation, permitting, and construction administration for two 12-story office buildings, including ground level retail space, six levels of below grade parking and reuse of an historic 2-story brick building.

**New Airside Terminal Building, Ben Gurion International Airport - Tel Aviv, Israel.** Project architect working closely with all engineering disciplines on the main roof structure, and MEP infrastructure, for this \$260 million, 920,000 SF terminal building.

**New Landside Terminal Design, Denver International Airport – Denver, Colorado.** Project architect involved with the design development of the main terminal building at Denver International.

**Sea-Tac Rental Car Facility – Seattle, WA.** Project architect overseeing the documentation of the exterior envelope for this 2.1 million, five-level facility with a capacity for 5,400 vehicles.
